

Collection **2021-2022**

MASH Motorcycles is THE brand created over 10 years ago by SIMA *.

Each year, new Mash are born on our lands of Burgundy.

When we thought about the 2021/2022 vintages, in the middle of a tormented year, we dreamed of simple sensations, those of the freedom to ride alone or with friends, those that good motorcycles give us.

Our dreams, our desires have guided us to build this reality: pleasure machines.

These new MASHs could not exist without the passion and the nimble hands of the SIMA teams.

Our creative path begins with drawing what we imagine.

Then, we manufacture prototypes, design the assemblies, test in the workshop and finally we ride to feel the sensations distilled by this new vintage.

Over the miles, changes, new tests, we build what we imagined.

In this land of excellent wines, we know the precision, the patience, the experience to obtain the fruit of hard work.

It is this spirit that we cultivate at MASH Motorcycles to deliver new motorcycles with character every year.

We hope that you will have as much fun with these motorcycles as we did in designing them and having them made.

See you soon on the roads ...

** SIMA, Company of Import of Motorcycles and Accessories, is a French brand born in 1976, from the passion for motorcycles of the SEURAT couple. Marcel SEURAT, competitor, creator of the "Supermotard" concept, talent scout, and his wife Jeannine, the first woman to have a motorcycle license in France and to enter competition.*

SIMA, originally is an importer and distributor of the biggest brands of motorcycles such as MV Agusta, Cagiva, Husqvarna and Benelli, but also Ducati, etc.

Following the death of Marcel SEURAT in 2004, Frédéric FOURGEAUD and Dominique DELSART took over the company in 2006. They continue to import motorcycles (ROYAL ENFIELD, MOTO MORINI, HYOSUNG...) and distribute them throughout France and Europe thanks to a network of more than 400 resellers.

In 2012, Sima became a manufacturer and created Mash Motorcycles.

PROTO

Bring your desires to life

We make our prototypes at scale 1 according to the design imagined at Sima.

Each model is digitized in 3D before the production of a pre-series by the factory.

The tests carried out then lead to improvements until the final validation.

Non-contractual data. Some of the equipment in this brochure is only available as an option.

X-Ride 650

Favorite at first sight ...

X-Ride 650 White Pearl

The X-Ride reminds us of good times. It combines a classic look with modern technology for our greatest pleasure.

A unique design for a real driving experience.

650

Heritage

Switchable ABS

LED headlight

Radial caliper, anodized aluminum rims

Non-contractual data. Some of the equipment in this brochure is only available as an option.

X-Ride 650

One more toy...

Non-contractual data. Some of the equipment in this brochure is only available as an option.

X-Ride 650 Gloss Black

Euro 5 electronic fuel injection, Switchable ABS, radial front caliper and master cylinder, aluminum swingarm, gas monoshock, aluminum handlebar, luggage rack, LED front and rear lights, vintage speedometer, electric starter and aluminum anodized rims.

650

Future icon

Rear luggage rack

Vintage counter

Six Hundred 650

Modern
Classic
Iconic

Non-contractual data. Some of the equipment in this brochure is only available as an option.

Six Hundred 650 Night Blue

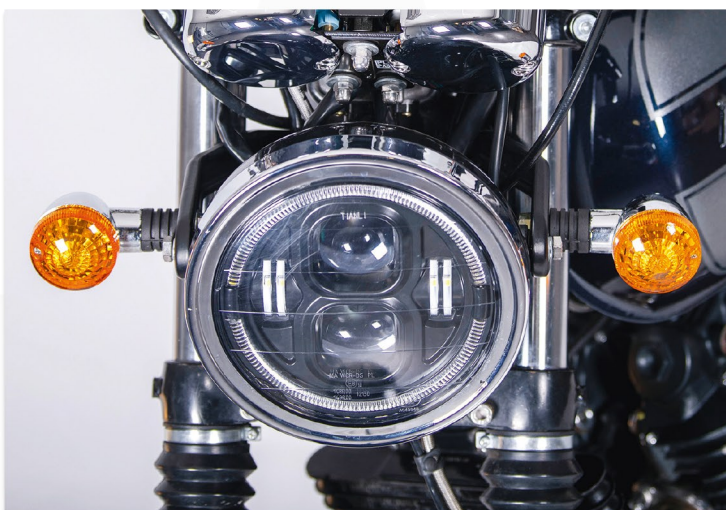

The Six Hundred, a unique motorcycle that features **classic styling with all the benefits of modern components**.

Fantastic handling and agility for this big 650 cc mono.

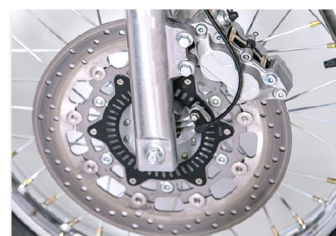

It is the result of know-how developed over 10 years by Mash and a desire to create an accessible motorcycle with a timeless design.

650

Surprisingly agile

LED headlight

Front brake with 4 piston caliper

3D Mash Logo

Non-contractual data. Some of the equipment in this brochure is only available as an option.

Six Hundred 650

English charm

Non-contractual data. Some of the equipment in this brochure is only available as an option.

Six Hundred 650 British Green

650 cc single-cylinder engine, 4 valves, air / oil cooling, 4-piston front caliper, double rear piston, switchable ABS, LED lights, speedometer / tachometer / tripmaster, two-tone paint and stainless steel spoked rims.

650

Period charm and modern setting
